

Centimetre waves effects of refraction; Eckersley T L; Air Ministry Great Baddow Research Laboratories; March 1942; TR/434; RAF 5

The investigation of horizontally and vertically polarised direction finding of frequencies of the order of 20 to 70 megacycles per second; Eckersley T L; Air Ministry Great Baddow Research Station; September 1942; TR/451; RAF 5

Short wave direction finding; Eckersley T L; Air Ministry Great Baddow Research Station; 1942; TR/454; RAF 10

The calculation of oblique-incidence transmission; Cox J W; Baddow Research Laboratories; November 1942; TR/434; RAF 11

1 to 10cm propagation curves; Millington G; Baddow Research Laboratories; January 1943; RD 460; RAF 19

Abnormal region-E ionisation; Eckersley T L; Air Ministry Great Baddow Research Station; March 1943; TR/464; RAF 13

Non-linear theory of wave propagation; Millington G; Baddow Research Laboratories; March 1943; RD 580; RAF 45

Transmission over ground of varying earth constants; ; Air Ministry Great Baddow Research Station; July 1943; TR/473; RAF 23

The LORAN system; Eckersley T L; Air Ministry Great Baddow Research Station; 8 September 1943; TR/475; RAF 28

Scattering; Eckersley T L; Air Ministry Great Baddow Research Station; November 1943; TR/481; RAF 49

The effect of the geomagnetic field on electromagnetic waves vertically incident on the ionosphere; Cox J W; Air Ministry Great Baddow Research Station; December 1943; TR/477; RAF 34

The attenuation of short radio waves by vertical reflection from the ionosphere; Cox J W; Air Ministry Great Baddow Research Station; January 1944; TR/478; RAF 33

The propagation of ultra-short waves round hills and other obstacles; ; Air Ministry Great Baddow Research Station; 18 November 1943; TR/479; RAF 41

Height-gain tests in the troposphere; Isted G A; Air Ministry Great Baddow Research Station; July 1944; TR/488; RAF 39

The reflection coefficient of a linearly graded layer; Section 'E'; Air Ministry Great Baddow Research Station; September 1944; TR/492; RAF 50

Preliminary analysis of Height-gain tests in the troposphere; L/AC McDowell R F C; Air Ministry Great Baddow Research Station; September 1944; TR/494; RAF 43

A note on the reflection coefficient of an isotropic layer of varying refractive index; Millington G; Air Ministry Great Baddow Research Station; 5 October 1944; TR/497; RAF 48

Alexandra Palace tests; Eckersley T L; Air Ministry Great Baddow Research Station; October 1944; TR/498; RAF 52

Polarisation measurements on reflected waves on 1.9 mc/s; Section 'E'; Air Ministry Great Baddow Research Station; December 1944; TR/500; RAF 53

The relation between the wave equation and the non-linear first order equation of the Riccati type; Eckersley T L; Air Ministry Great Baddow Research Station; January 1945; TR/501; RAF 61

Notes on the solution of a non-linear first order equation of the Riccati type; Section 'E'; Air Ministry Great Baddow Research Station; February 1945; TR/501; RAF 62

A report on transmission of waves over the earth; Eckersley T L; Air Ministry Great Baddow Research Station; January 1945; TR/504; RAF 55

Reflection and scattering; Eckersley T L; Air Ministry Great Baddow Research Station; January 1945; TR/506; RAF 56

The reflection of short waves from region e; Millington G, Cox J W; Air Ministry Great Baddow Research Station; February 1945; TR/508; RAF 60

New convergent integrals; Eckersley T L; Air Ministry Great Baddow Research Station; February 1945; TR/509; RAF 57

The propagation of waves in graded layers by converting the wave equation to the non-linear Riccati type; ; Section 'E'; Air Ministry Great Baddow Research Station; June 1945; TR/503; RAF 71

The wave velocity equation of the magneto-ionic theory; Eckersley T L; Air Ministry Great Baddow Research Station; 20 July 1945; TR/522; RAF 67

Propagation of radio waves in an ionised medium; Eckersley T L; Air Ministry Great Baddow Research Station; June 1945; TR/524; RAF 68

Ionospheric changes associated with the magnetic storm of March 24th, 1940; Eckersley T L; Air Ministry Great Baddow Research Station; October 1945; TR/524; RAF 70
